

KodaKodra

FULL-STACK WEB DEVELOPER

Laravel / PHP / React / TypeScript / SQL

Available immediately

PROFILE

Solo full-stack web developer with 8 years of professional experience, specialising in Laravel, PHP and React. Delivers projects end-to-end - scoping, database design, development, testing and deployment - across roughly 100 web builds spanning social platforms, e-commerce, booking systems, dashboards and bespoke small-business sites.

Two decades of prior customer service and team leadership experience across supermarket, food service and retail environments underpin clear communication, reliability under pressure and practical problem-solving. Earlier roles included food preparation, kitchen assistant duties, hygiene practices, order taking, cash handling and shift cover.

A fast, self-directed learner who independently reached a professional standard in software development alongside other work. Comfortable working solo end-to-end and collaborating through GitHub, pull requests, shared repositories and code review.

TECHNICAL SKILLS

Core

PHP / Laravel / JavaScript / TypeScript / React / SQL (MariaDB / MySQL / PostgreSQL)

Web

Blade / Node.js / RESTful APIs / jQuery / Bootstrap 5 / HTML5 / CSS3

Testing & Quality

Pest / PHPUnit / PHPStan / Nightwatch / QA Testing / Regression Testing

Development & Infrastructure

Git / GitHub / Docker / Redis / Composer / npm / Bash / Apache

Additional

Java / LWJGL / OpenGL / GLSL / VBA / phpMyAdmin / HeidiSQL / DBeaver / Gradle / JSON / YAML / Markdown

Professional

Customer Service / Complaint & Query Resolution / Team Leadership / Problem-Solving / Working Under Pressure

EXPERIENCE

Web Developer - Independent / Solo Projects

2019 - Present

- Design and build full-stack web applications independently using Laravel, PHP, React and TypeScript across social, e-commerce, booking, dashboard/analytics and small-business platforms.
- Handle scoping, database design, development, authentication, search, messaging, notifications, payments, content management, booking workflows, testing and deployment.
- Maintain and improve existing systems through refactoring, bug fixing, QA and regression testing; plan work around efficiency, product tracking and technical requirements.
- Collaborate through GitHub pull requests, shared repositories and code review when projects involve other developers.

Customer Service & Team Support - Retail & Hospitality

1998 - 2018

- Two decades of frontline service across supermarket, food service and retail environments, handling queries, complaints, transactions and busy-period customer demands.
 - Food preparation, kitchen assistant duties, hygiene practices, order taking, cash handling, stock replenishment and shift cover.
 - Built a practical foundation in clear communication, reliability under pressure, problem-solving and working effectively with customers and colleagues.
- 2018 - 2019: career break for full-time family caring responsibilities.

KEY PROJECTS

KodaKodraSocial

- Laravel-based social media platform built from scratch, including authentication, profiles, social interactions and content management.

Torin

- Voxel game engine using Java, LWJGL and OpenGL, including procedural world generation, chunk rendering, physics, block interaction, dynamic lighting and a day/night celestial system.

E-commerce & Booking Platforms

- Bespoke customer and admin interfaces, product/service management, booking workflows and backend systems.

Business Dashboards & Analytics

- Data-driven dashboards focused on usability, efficiency, clear presentation and practical business workflows.

Websites & Digital Platforms

- Portfolio, brochure, small-business and bespoke platforms, including adapting and improving existing systems.

Legacy Systems & QA

- Bug fixing, refactoring, QA testing, regression testing, planning, workflow optimisation and product tracking.

EDUCATION & QUALIFICATIONS

Team Leading & Management

NCFE Level 2 & 3, 2022

Information & Communication Technology

AVCE Level 3, 2004

GCSEs

English, Mathematics, IT, 3 x Sciences (A-C), 2003

CUSTOMER SERVICE & OPERATIONS

- Query and complaint resolution; face-to-face and phone support; order taking and transaction handling.

- Food preparation and hygiene; kitchen assistant duties; cash handling; till/POS systems; stock control and merchandising.

- Shift cover and team support, backed by NCFE Level 2 & 3 Team Leading & Management.

PROFESSIONAL APPROACH

Combines technical delivery with two decades of frontline customer experience. Works independently, communicates clearly with technical and non-technical people, learns unfamiliar systems quickly and stays methodical when priorities change or work is under pressure.
